

Environmental Policy

Oxford Sound & Media will conduct its activities and operations to reflect best environmental practice.

We will: -

- Meet and where possible adopt best practice regarding all relevant UK European and international legislative and regulatory requirements and agreements.
- Review our activities and operations to identify environmental aspects and prioritise action to address them.
- Reduce energy and resource consumption by promoting effective and efficient reduction methods consistent with best practice.
- Raise awareness of the environment amongst our employees.
- Implement wherever possible green transport plans for business travel.
- Minimise the use of toxic materials and waste generated and to prevent pollution.
- Seek to influence and support our suppliers to ensure that goods and services procured are consistent with this environmental policy.
- React positively to regulatory changes in relation to environmental matters. Most specifically, we will take steps to ensure that our suppliers are taking reasonable steps to comply with the European Union's Waste, Electrical and Electronic Equipment (WEEE) and Reduction of Use of Certain Hazardous Substances (RoHS) directives.
